EDUCATION

Data Analytics Professional Certificate
Google / Coursera

04/2021 - 11/2021

Courses

- Data collection
- Data analysis
- Data cleaning
- Data visualization

Bachelor of Engineering
Universidad del Zulia

07/2013 - 10/2019

PERSONAL PROJECTS

Dollar Forecast (01/2024 - Present)
- Website: https://dollar-forecast.vercel.app/index.html
- Project's Blog: https://joselws.hashnode.dev/dollar-forecast
- Full-Stack web development, HTML, CSS, JavaScript, Python, AWS, serverless, DynamoDB, Docker, Machine Learning, web scraping

WORK EXPERIENCE

Software Engineer
Cheetrack

03/2022 - 10/2023   *Remote*

Web application for multi-platform message management and automation, mainly WhatsApp.

Achievements

- Implementation of most of the website's graphs
- Implementation of its first feature written in Go
- Documented its API with OpenAPI specification
- Development of API testing suite with Postman
- Development and integration of multiple Shopify features

TECHNICAL SKILLS

Python   AWS   JavaScript   SQL   Go   IaC

NoSQL   HTML   CSS   Docker   OpenAPI

TypeScript   Git   Linux

ACHIEVEMENTS

Honors student (07/2013 - 07/2014)
One of the top 10 students of my University during this period.

CERTIFICATES

EF SET English certification (02/2024 - 02/2024) ⬀
Official recognition of my C2 English level.

Supervised Machine Learning: Regression and Classification (01/2023 - 02/2023) ⬀

Data Analysis with Python (01/2022 - 02/2022) ⬀

Full-Stack Web Development with React (04/2021 - 08/2021) ⬀
3 course specialization covering building user interfaces with Bootstrap and React, and backend development with NodeJS, Express, and MongoDB.

Data Analysis with R (02/2021 - 05/2021) ⬀
3 course specialization covering probability, descriptive and inferential statistics, and linear regression and modeling.
